SPRING IS COMING!!!

Got those planes ready yet? It's that time of year to put the finishing touches on your winter project and get it ready for another season of flying. This year, Jim Cartwright is hosting another Project Day at his place, so if you are new to the club, now is the time to gain some insight on how to build a plane or just getting some tips that will help you maintain your plane and keep it flying this season.

If you are new to this hobby and have an airplane, please bring it and we'll check it out for you to make sure it's flight ready and safe. A lot of things will go wrong with an airplane in flight if not thoroughly checked out on the ground.

Letter from the Pres...

Greetings to all,

I trust you all are getting anxious for spring, well I know I am. Looking at all the plane stuff I got ready this past winter, mostly repairs. I think I am ready.

Well if your not, you still have time to dust off that old plane, cycle those batteries again maybe even clean the old glow fuel off of that war bird you last flew year.

What ever you fly its time to start getting stuff ready again!

Warm weather IS coming and soon it will be time to fly

Speaking of dusting old things off...

Maybe there is someone you have not seen at the field for a while or at the meetings.

This would be a good time to dust off that old friendship and encourage them to pick up that controller and come to the field and get involved in the club again. You all know that it takes all of us to make a good club and to keep it going.

Well I found some more repairs so I better get to it.

Hope to see at the meeting

Rick
