Princeton Flying Tigers Meeting Minutes April 09, 2010

The meeting was called to order by Greg Anselment at 8:02 p.m. at Godfather's Pizza in Zimmerman with 14 individuals in attendance.

Lyman read the secretaries minutes and there were no additions or corrections. Thanks to Becky for filling in as secretary during February and March.

Larry presented the Treasurer's report. The Charter fees and insurance are paid. There are some items available for purchase.

Field Maintenance.

The field is reported to be in good shape.

Safety Officers Report

Nothing to report

Old Business

Gregg indicated the fuel has been purchased and is available. The price of fuel at the field has been set at \$17.00 per gallon.

Larry stated the fee to enter the Rum River Parade is increased to \$35.00 this year. A motion was made, seconded and carried to pay the fee and enter the parade. The theme of the parade is "Swinging 40's".

Mr. Essig indicated his taxes for the field are \$230.00. The consensus seems to be to increase our gift to Mr. Essig to \$200.00 next year. There was no action taken to accomplish this.

Project day at Jim and Becky Cartwright's is set for May 1. Bring food to share.

Aaron and Miranda have completed the club sign and it looks great. Thank you.

Bruce has ordered all the materials for the shelter at the field and the plan is to put it up on field clean up day which is April 24. The fun starts at 10 a.m. Bring cordless drills etc. In case of a rainout, it will be rescheduled for the following day, April 25.

There was considerable discussion on club membership, however, no conclusions were reached or action taken.

New Business.

Craig paid his dues for 2010.

Show and tell

Craig displayed his electric 4SITE aircraft and discussed batteries etc..

Membership inquiries

None

The raffle was won by Gregg Herried who will give the winnings to his personal finance officer for safe keeping if he knows what is good for him. . \$13 went to the club.

Respectfully submitted by Lyman Stein

NOTES FROM THE EDITOR

Hi, some of us have enjoyed the fabulous weather to soak up some rays at the field and watch our planes fly around. Jim Cartwright is having a building day and **pot gut** at his home on May 1 at noon. If you need building advice bring your plane and take advantage of the experts who will supply many ways to get the job done. The first training night is Thursday, May 6 and every Thursday weather permits until the last day of September. I am urging members who have Internet service to receive the newsletter by E-MAIL who are not already doing so in order to save the club a few Pesos by E-MAILING me at d.helps@hotmail.com. The expert on **electrics** is Craig Lamatsch who rejoined and insists he needs retraining, welcome back Cotter-er Craig.
