Notes from the editor

The Christmas party was well attended. The food and accommodations were really good. We had a short meeting like always before the party. The gift exchange was fun as always. Pat Helps ended up with the *turd bird* and a nice horse head in a horse shoe that Larry made in his shop from sheet metal. The turd bird has been traveling around the club for years so I better not break the tradition by keeping it. He is a cute little turd and would fit in with my carvings.

Bruce Fedler's DVD taken at Larry's fly-in was very well done. He brought one for all those attending the party. Thanks Bruce!! Bruce's grandson, Carson, helped me with the drawings. He was excited when he drew grandpa's name and of course there was questions regarding that.

When you get your membership list, save it so you can add new names when more people re-new or new members join. This will be the last list till mid-summer.

Keep on building!! **Don**
